## WORK SURFACES

- Tabletops are constructed of 1/4", three-ply particleboard core
- Top surfaces receive a durable .050" high-pressure plastic laminate sheet
- Solid external hardwood edge is semi-bullnosed
- 1/32" v-groove detail highlights the juncture of hardwood and laminate
- Work surfaces may be custom fitted for various electrical/data options

Sabrina chairs with perforated backs beautifully offset the tubular steel legs and marbled laminate work surface of Bridge reading tables at the Charles A. Wagner Branch Library in Metairie, LA.

## PANELS

- End, back, and mid-panels of study carrels are constructed from 3/4" veneer plywood
- External edges receive an eased 1/4" solid hardwood edgeband
- End panels of index and study carrel tables are 1/4", three-ply particleboard core, faced with plain sliced, grade "A" veneers; external edges receive an eased 1/4" solid hardwood edgeband
- Panels may be custom fitted with electrical options and wire management accessories
- Shelves are constructed from 3/4" veneer plywood with an eased 1/4" solid hardwood band along the facing edge

## LEGS AND SEATING

Work surfaces "float" atop steel pintels via a concealed steel plate assembly

- Work surfaces float 2" atop 16-gauge tubular steel legs (2" diameter) via a steel pintel and plate assembly
- All welds and grinds are smoothed
- Legs may be custom painted using an electrostatically applied epoxy powder for resiliency
- The Empire seating line is a beautiful complement to the Bridge collection

Its tubular steel frame makes the Empire chair an ideal counterpart to the Bridge design range.

The sleek and contemporary Bridge collection is a perfect combination with the custom designed circulation desk at the Charles A. Wagner Branch Library.
